SKILLS

- React
- JavaScript
- HTML/CSS
- SQL
- REST API
- Node JS
- Python
- MongoDB

My specialties include quickly learning new skills and programming languages, problem-solving, responsive design principles, website optimization, methods of organizing code. I'm still enthusiastically grabbing onto any other programming languages, frameworks, or principles I can integrate into the coding web in my head.

PROFESSIONAL EXPERIENCE

11/2015 – Present
Bellevue, USA

BluePrint Technologies, *Front-End Engineer*
- Created more than 30 web application landing pages with HTML5, CSS3, and React.
- Used CSS/Bootstrap to design multiple responsive web apps
- Created, maintained, and enforced front-end code and documentation standards
- My website made a huge impact on the company that increased overall employees productivity

08/2010 – 09/2014
Moscow, Russia

Yandex, *Technical Support Engineer*
- Diagnosed, troubleshot, and resolved customer issues
- Kept track of users' system issues until they are resolved by adhering to the agreed timelines
- Was responsible for a variety of recovery tasks (e.g., installing and testing replacement hardware and software, keeping customer apprised of work status).

EDUCATION

09/2020 – present

Bachelor of Computer Science, *University of the People* ↗
Coursework: Hardware and Operating Systems, Networking, Information Security, CySA+, Python, Java Programming, Ethical Hacking

07/2013
Moscow, Russia

Technology Management Bachelor's Degree, *International University of Moscow*
Part of my curriculum included CS50, Principles of Computing and Cyber Security.

PROJECTS

Arti Note, *For this project I mostly used React JS which helped me to gain more experience with React.* ↗

Lights-Out, *Electronic puzzle. This is another React JS project, where I learned how to structure my React States and organize my code* ↗

Asal, *This is a website for one of my clients which was completed in 3 weeks deadline.* ↗

Secret Keeper, *In this app, I learned all about Authentication and Security using Google and Facebook Login API.* ↗
